MYSORE.

1. A Hindu State in Southern India, whose present ruling dynasty dates from A.D. 1399 when two brothers, Vijayaraj and Krishnaraj, came to Mysore, and one of them, by marrying the daughter of a petty baron, established a rule which, commencing with a few villages, now comprises the Mysore Territory.

2. In the reign of Chikka Krishnaraj Wadiyar (1734-1765), the famous Haidar Ali usurped the chiefship; but, on the fall of his son and successor, Tipu, the Hindu dynasty was restored under another Krishnaraj Wadiyar. The people broke into rebellion in 1831 and in consequence the British Government assumed the direct management of the State. The country was restored to native rule in March 1881, in the person of the late Maharaja Chamrajendra Wadiyar, who died in Calcutta in 1894. At the same time as the Rendition of 1881, His Highness assigned free of charge, to the exclusive management of the British Government, for the purposes of a Cantonment, the lands forming the Civil and Military Station of Bangalore and renounced the exercise of all jurisdiction in those lands. At the same time the island of Seringapatam was restored to His Highness.

3. (1) The present Ruler, Maharaja Sir Sri Krishnaraja Wadiyar Bahadur, G.C.S.I., G.B.E., is the eldest son of the late ruler and was born on the 4th June 1884. (2) On the death of his father he was only ten years old and the government of the State was therefore entrusted to his mother, Her Highness the Maharani C.I., as Regent, assisted by a Dewan and Council of three. (3) After 8 years of useful and progressive administration the Regency terminated on the 8th of August, 1902, on which date His Highness was invested with full administrative powers by Lord Curzon, the then Viceroy and Governor-General of India. (4) His Highness was made a Knight Grand Commander the Star of India on the 1st January 1907.

(5) In 1910 the Maharaja was granted the honorary rank of Colonel in the Army. (6) On the 4th December 1917 he was appointed a Knight Grand Cross of the Order of the British Empire for services in connection with the War. (7) His Highness is assisted by a Council styled 'the Council of His Highness the Maharaja' consisting of the Dewan and two or more Members as appointed by His Highness. (8) The present Council consists of Amin-ul-Mulk Sir Mirza Muhammad Ismail, ~~Kt., C.I.E.~~, K.C.I.E., O.B.E., who is the President, and two members ~~Rajamantrapravina Diwan Bahadur K. Matthan, B.A., and~~ Rajamantrapravina S.P.Rajagopalachari, B.A., B.L., and Mr. Madhavarao B.A. B.L. In 1900 His Highness married the daughter of Rana Jhala Brane Singhji of Vana. The heir presumptive is His Highness's brother Sir Sri Kantirava Narasimharaja Wadiyar Bahadur, G.C.I.E., Yuvaraja, to whom a son and heir named Sri Jaya Chamaraja Wadiyar was born on 18th July 1919. The Yuvaraja was born on the 5th June 1888. He proceeded on a tour to Europe and Great Britain in March 1913, spent about six months on his travels and returned to Mysore early in October 1913. On the 1st January 1918, the title of His Highness was conferred on the Yuvaraja as a personal distinction for services in connection with the War. His Highness the Yuvaraja proceeded again on a tour to Europe and Great Britain for about six months in 1920 and since then he has been a constant visitor to Europe and in 1932 he visited, for the first time, the United States of America.

4. The Instrument of Transfer, which formerly regulated the relations between the Darbar and the Paramount Power, has been replaced by a Treaty which was ratified by His Excellency the Viceroy on the 1st December 1913. Article 18 of the Treaty has since been abrogated.

5. Of the eight districts into which the State is divided, Shimoga is the chief rice-growing tract, followed by Mysore with its fine system of irrigation from the river Cauvery, while Chitaldroog is pre-eminently the cotton district. Coffee is largely grown in Kadur and Hassan. Tumkur has the

greatest extent of cocoanut plantations, while Shimoga produces much arecanut. Bangalore and Mysore grow mulberry for the purposes of sericulture. Sandalwood is a State monopoly and produces a large revenue.

6. The Mysore Government have a separate Department called the Amrit Mahal Department for the supply and improvement of cattle, and with a view to meeting the growing demands of the agricultural population in the State for good cattle, they have recently established a cattle breeding station at Ajjampur. The Veterinary Department is carrying on a campaign to control contagious diseases of cattle, especially rinderpest. Active immunisation (Serum Simultaneous method) against rinderpest has been almost universally adopted with most satisfactory results and the peasants have realised the efficacy of this inoculation. The Mysore Government have a Department of Sericulture to look after the rearing of silk worms and the production of silk. The State maintains a filature and gives demonstrations with domestic basins. The Government have started reeling classes to train reelers in domestic basin installations.

7. The most generally practised industrial arts, of native growth, are those connected with metallurgy, pottery, carpentry, tanning, glass-making, the production of textile fabrics or the raw material for them, rope-making, expressing oil and saccharine matter, and the manufacture of earth salt.

8. (1) The most remarkable industrial development in Mysore has been in connection with gold mining. (2) The State is now the principal gold-producing centre in India, the value of the output including that of a relatively small quantity of silver, for 1934 ~~1933~~, being £ 2,086,002. (3) The source of the metal at present is the Kolar Gold Fields, situated to the east of a low ridge in the Bowringpet taluk (4) The industry is wholly British, the bulk of it being under the management of the firm of Messrs. John Taylor and Sons. (5) With a view to reduce the working expenses of the mines the Darbar have adopted a bold scheme for utilizing the water-power of the Falls of the Cauvery

at Sivasamudram for the generation of electricity and for the transmission of that power to the Gold Fields, and the same power is used to instal electric lights not only in the cities of Mysore and Bangalore, but also in about 130 towns and villages in the State as also to supply power to the mills in Mysore and Bangalore, and the industries in 28 villages and the Iron and Steel Works at Bhadravati (vide orders of His H.H.)

9. The Representative Assembly which was established in 1881 was in 1923 placed on a statutory basis with enlarged functions. The Assembly is to consist of ordinarily 250 and not more than 275 elected and nominated members and has the privilege of being consulted on all proposals for the levy of new taxes and also, except in cases of urgency, on the general principles of all measures of legislation within the cognizance of the Legislative Council. Subject to certain exceptions the Assembly has the right of asking questions and passing resolutions on matters relating to public administration and on the general principles and policy underlying the annual budget. The Legislative Council which was instituted in 1907 was in 1923 enlarged and its constitution revised so as to increase the elected element and ensure a non-official majority. Exclusive of the Dewan, who is the President, and the members of the Council of His Highness, who are ex-officio members, the strength of the Legislative Council is fifty of whom not less than sixty percent are non-official members elected and nominated. In addition to the power of making Laws and Regulations, the Council has certain powers of asking questions, moving resolutions and voting on the annual budget by major heads, in respect of all items of expenditure save those specially excluded from its cognizance. His Highness's Government have, however, power to restore a provision wholly or partly disallowed by the Council and also, in cases of emergency to authorise expenditure not provided in the budget.

10. (1) The administrative system adopted is practically the same as that which was in force during the 50 years of British

British occupany which terminated in 1881. The country is traversed by 731.62 miles of railway inclusive of 36.2 miles of tramway and projects for further extension of railway communication are under construction or consideration. The province being largely dependent on agriculture, measures for the extention of irrigation and for the improvement of agriculture occupy prominent attention, and a feature of the country is the abundance of rain-fed tanks, which, large and small, number no less than 39,000. A huge dam has been constructed at Krishnarajasagara across the Cauvery river, impounding its waters for purposes of irrigation. Experiments are being made with tube-wells. Departments of Agricultural Chemistry, Mycology and Entomology, and Geology, Railway, and Industry and Commerce have been formed; While Archaeology and Epigraphy recive due attention. There are 280 Medical Institutions affording free medical relief to the public, inclusive of the Mental Hospital, the Leper Asylum and the Minto Ophthalmic Hospital, Bangalore, the Maternity Hospitals at Bangalore, Mysore and the Kolar Gold Fields, the Epidemic Diseases Hospitals at Bangalore, Mysore and Kolar Gold Fields and the Tuberculosis Sanatorium at Mysore. A special Department of Public Health has been organized for dealing with epidemics and for effecting improvements in the general sanitary condition of the State. Education is making steady progress, the total number of educational institutions being 7692 with a strength of 3,11,957. All education below the High School grade is imparted free. The Mysore University was started in July 1916. State Life Insurance has been introduced for the benefit of the public servants in the Mysore service and since 1917-18, this has been extended to the general public also. The finances of the State are in a sound condition. There is a Sandalwood oil factory at Mysore worked under State management. In order to make use of the valuable Iron ore deposits in the State, the Mysore Government have established a modern plant at Bhadravati with a 80 ton Blast Furnace run with charcoal as fuel. A wood distillation plant of 16 retorts

4

has also been added for the manufacture of charcoal.. This plant is the biggest in the British Empire and the wood distillation industry is of national importance as a supplier of calcium acetate which is used in the manufacture of cordite. For want of a good market for pig iron, a plant for the conversion of pig iron into steel by the Siemen's basic open hearth process has been recently sanctioned together with a rolling mill for rolling the various sections in demand in the State and the surrounding territory. The State has from time to time raised public loans (both in and outside Mysore) for financing large productive works and for creating a sinking Fund for their repayment an annual contribution is made from the Revenue Budget. The total public debt outstanding at the end of December 1934 is Rs. 1007 lakhs, and the total amount at the credit of the Loan Sinking Fund on the same date is Rs. 413 lakhs. A Regulation for the levy of Income-tax was introduced with effect from the 1st July 1920.

The Imperial Postal Department took charge of all postal arrangements in the State on the 1st April, 1889.

11. In the Great War of 1914-1918 the Mysore State Transport Corps did good work in Mesopotamia, and the Mysore Lancers rendered valuable service in Egypt and Palestine. Recruiting was stimulated throughout the State and material concessions have been granted to promote the education of the children of soldiers who were killed or disabled in the war. His Highness the Maharaja generously presented horses, ambulance, tongas and other useful gifts and liberally contributed towards the expenses of the war and to the Imperial Indian Relief Fund.

Sir Mirza M. Ismail, K. C. I. E., O. B. E.,

Dewan of Mysore.

Column 8. Average annual revenue (for the last 5 years)
For the figure 3,45,27,000 substitute the figure 3,43,73,000.

Column 9. Average annual expenditure (for the last five years.)
For the figure 3,69,38,000 substitute the figure 3,68,01,000.

" 16. For "495" (Mysore Lancers) substitute 481"
For "131" (Mysore Horse) substitute "123"
For ~~"157"~~ "Mysore Body Guard" substitute "157"
"His Highness the Maharaja's Body guards"

" 17 For the figure "792" (Mysore Infantry) substitute the figure "804".
For (Mysore Palace Guard) "548" substitute "Palace Infantry" ~~"548"~~ "522"

" 18 For the figure "6492" (Police Forces) substitute the figure "6525".

Paragraph 3 For the 8th sentence beginning with "The Present Council ..... substitute
"The present Council consists of Amin-ul-mulk Sir Mirza M.Ismail, K.C.I.E., O.B.E. who is the President and two Members, Rajamantrapravina S.P. Rajagopalachari, B.A., B.L., and Mr.N.Madhava Rao, B.A., B.L., "

Paragraph 8. Second sentence. For "1933" substotute "1934" and for £ 2,086,002 substitute £ 2,211,290.
Fifth sentence. For "130 towns and villages" substitute "132 Towns and Villages".
Fifth sentence. For "Operate" substitute " Supply power to".

Paragraph 8. Fifth sentence. Omit "and" before "the Industries" and add after "28 villages" " and the Iron and Steel Works at Bhadravati."

Second sentence. For "731.62 miles of Railway" substitute "731.86 miles of Railway."

M Y S O R E.

1. A Hindu State in Southern India, whose present ruling dynasty dates from A.D. 1399 when two brothers, Vijayaraj and Krishnaraj, came to Mysore, and one of them, by marrying the daughter of a petty baron, established a rule which, commencing with a few villages, now comprises the Mysore Territory.

2. In the reign of Chikka Krishnaraj Wadiyar (1734-1765), the famous Haidar Ali usurped the chiefship; but, on the fall of his son and successor, Tipu, the Hindu dynasty was restored under another Krishnaraj Wadiyar. The people broke into rebellion in 1831 and in consequence the British Government assumed the direct management of the State. The country was restored to native rule in March 1881, in the person of the late Maharaja Chamrajendra Wadiyar, who died in Calcutta in 1894. At the same time as the Rendition of 1881, His Highness assigned free of charge, to the exclusive management of the British Government, for the purposes of a Cantonment, the lands forming the Civil and Military Station of Bangalore and renounced the exercise of all jurisdiction in those lands. At the same time the island of Seringapatam was restored to His Highness.

3. The present Ruler, Maharaja Sir Sri Krishnaraja Wadiyar Bahadur, G.C.S.I., G.B.E., is the eldest son of the late ruler and was born on the 4th June 1884. On the death of his father he was only ten years old and the government of the State was therefore entrusted to his mother, Her Highness the Maharani C.I., as Regent, assisted by a Dewan and Council of three. After 8 years of useful and progressive administration the Regency terminated on the 8th of August, 1902, on which date His Highness was invested with full administrative powers by Lord Curzon, the then Viceroy and Governor-General of India. His Highness was made a Knight Grand Commander the Star of India on the 1st January 1907.

50

In 1910 the Maharaja was granted the honorary rank of Colonel in the Army. On the 4th December 1917 he was appointed a Knight Grand Cross of the Order of the British Empire for services in connection with the War. His Highness is assisted by a Council styled 'the Council of His Highness the Maharaja' consisting of the Dewan and two or more Members as appointed by His Highness. The present Council consists of Amin-ul-Mulk Sir Mirza Muhammad Ismail, K.C.I.E., O.B.E., who is the President, and two members, ~~Rajamantrapravina~~ Diwan Bahadur K. Matthan, B.A., and Rajamantrapravina S.P.Rajagopalachari, B.A., B.L., and Rajamantrapravina M. Madhava Rao, B.A., B.L. In 1900 His Highness married the daughter of Rana Jhala Brane Singhji of Vana. The heir presumptive is His Highness 's brother Sir Sri Kantirava Narasimharaja Wadiyar Bahadur, G.C.I.E., Yuvaraja, to whom a son and heir named Sri Jaya Chamaraja Wadiyar was born on 18th July 1919. The Yuvaraja was born on the 5th June 1888. He proceeded on a tour to Europe and Great Britain in March 1913, spent about six months on his travels and returned to Mysore early in October 1913. On the 1st January 1918, the title of His Highness was conferred on the Yuvaraja as a personal distinction for services in connection with the War. His Highness the Yuvaraja proceeded again on a tour to Europe and Great Britain for about six months in 1920 and since then he has been a constant visitor to Europe and in 1939 he visited, for the first time, the United States of America.

4. The Instrument of Transfer, which formerly regulated the relations between the Darbar and the Paramount Power, has been replaced by a Treaty which was ratified by His Excellency the Viceroy on the 1st December 1913. Article 18 of the Treaty has since been abrogated.

5. Of the eight districts into which the State is divided Shimoga is the chief rice-growing tract, followed by Mysore with its fine system of irrigation from the river Cauvery, while Chitaldroog is pre-eminently the cotton district. Coffee is largely grown in Kadur and Hassan. Tumkur has the

57

greatest extent of cocoanut plantations, while Shimoga produces much arecanut. Bangalore and Mysore grow mulberry for the purposes of sericulture. Sandalwood is a State monopoly and produces a large revenue.

6. The Mysore Government have a separate Department called the Amrit Mahal Department for the supply and improvement of cattle, and with a view to meeting the growing demands of the agricultural population in the State for good cattle, they have recently established a cattle breeding station at Ajjampur. The Veterinary Department is carrying on a campaign to control contagious diseases of cattle, especially rinderpest. Active immunisation (Serum Simultaneous method) against rinderpest has been almost universally adopted with most satisfactory results and the peasants have realised the efficacy of this inoculation. The Mysore Government have a Department of Sericulture to look after the rearing of silk worms and the production of silk. The State maintains a filature and gives demonstrations with domestic basins. The Government have started reeling classes to train reelers in domestic basin installations.

7. The most generally practised industrial arts, of native growth, are those connected with metallurgy, pottery, carpentry, tanning, glass-making, the production of textile fabrics or the raw material for them, rope-making, expressing oil and saccharine matter, and the manufacture of earth salt.

8. The most remarkable industrial development in Mysore has been in connection with gold mining. The State is now the principal gold-producing centre in India, the value of the output including that of a relatively small quantity of silver, for ~~1933~~ 1935, being ~~£ 2,086,008.~~ The source of the metal at present is the Kolar Gold Fields, situated to the east of a low ridge in the Bowringpet taluk. The industry is wholly British, the bulk of it being under the management of the firm of Messrs. John Taylor and Sons. With a view to reduce the working expenses of the mines the Darbar have adopted a bold scheme for utilizing the water-power of the falls of the Cauvery

52

at Sivasamudram for the generation of electricity and for the transmission of that power to the Gold Fields, and the same power is used to instal electric lights not only in the cities of Mysore and Bangalore, but also in about ~~150~~ towns and villages in the State as also to supply power to ~~operate~~ the mills in Mysore and Bangalore ~~and~~ the industries in 28 villages and the Iron and Steel Works at Bhadravati.

9. The Representative Assembly which was established in 1881 was in 1923 placed on a statutory basis with enlarged functions. The Assembly is to consist of ordinarily 250 and not more than 275 elected and nominated members and has the privilege of being consulted on all proposals for the levy of new taxes and also, except in cases of urgency, on the general principles of all measures of legislation within the the cognizance of the Legislative Council. Subject to certain exceptions the Assembly has the right of asking questions and passing resolutions on matters relating to public administration and on the general principles and policy underlying the annual budget. The Legislative Council which was instituted in 1907 was in 1923 enlarged and its constitution revised so as to increase the elected element and ensure a non-official majority. Exclusive of the Dewan, who is the President, and the members of the Council of His Highness, who are ex-officio members, the strength of the Legislative Council is fifty of whom not less than sixty percent are non-official members elected and nominated. In addition to the power of making Laws and Regulations, the Council has certain powers of asking questions, moving resolutions and voting on the annual budget by major heads, in respect of all items of expenditure save those specially excluded from its cognizance. His Highness's Government have, however, power to restore a provision wholly or partly disallowed by the Council and also, in cases of emergency to authorise expenditure not provided in the budget.

10. The administrative system adopted is practically the same as that which was in force during the 50 years of British

53

British occupany which terminated in 1881. (2) The country is traversed by ~~764.62~~ 773.86 miles of railway inclusive of ~~36.2~~ miles of tramway and projects for further extension of railway communication are under construction or consideration. (3) The province being largely dependent on agriculture, measures for the extention of irrigation and for the improvement of agriculture occupy prominent attention, and a feature of the country is the abundance of rain-fed tanks, which, large and small, number no less than 39,000. (4) A huge dam has been constructed at Krishnarajasagar across the Cauvery river, impounding its waters for purposes of irrigation. (5) Experiments are being made with tube-wells. (6) Departments of Agricultural Chemistry, Mycology and Entomology, and Geology, Railway, and Industry and Commerce have been formed; While Archaeology and Epigraphy recive due attention. (7) There are ~~280~~ Medical Institutions affording free medical relief to the public, inclusive of the Mental Hospital, the Leper Asylum and the Minto Ophthalmic Hospital, Bangalore, the Maternity Hospitals at Bangalore, Mysore and the Kolar Gold Fields, the Epidemic Diseases Hospitals at Bangalore, Mysore and Kolar Gold Fields and the Tuberculosis Sanatorium at Mysore. (8) A special Department of Public Health has been organized for dealing with epidemics and for effecting improvements in the general sanitary condition of the State. Education is making steady progress, the total number of educational institutions being ~~7692~~ with a strength of ~~3,11,957~~. All education below the High School grade is imparted free. The Mysore University was started in July 1916. State Life Insurance has been introduced for the benefit of the public servants in the Mysore service and since 1917-18, this has been extended to the general public also. The finances of the State are in a sound condition. There is a Sandalwood oil factory at Mysore worked under State management. In order to make use of the valuable Iron ore deposits in the State, the Mysore Government have established a modern plant at Bhadravati with a 80 ton Blast Furnace run with charcoal as fuel. A wood distillation plant of 16 retorts

has also been added for the manufacture of charcoal.. This plant is the biggest in the British Empire and the wood distillation industry is of national importance as a supplier of calcium acetate which is used in the manufacture of cordite. For want of a good market for pig iron, a plant for the conversion of pig iron into steel by the Siemen's basic open hearth process has been recently sanctioned together with a rolling mill for rolling the various sections in demand in the State and the surrounding territory. The State has from time to time raised public loans (both in and outside Mysore) for financing large productive works and for creating a sinking Fund for their repayment an annual contribution is made from the Revenue Budget. The total public debt outstanding at the end of December 1936 is Rs. 1007 lakhs, and the total amount at the credit of the Loan Sinking Fund on the same date is Rs. 413 lakhs. A Regulation for the levy of Income-tax was introduced with effect from the 1st July 1920.

The Imperial Postal Department took charge of all postal arrangements in the State on the 1st April, 1889.

11. In the Great War of 1914-1918 the Mysore State Transport Corps did good work in Mesopotamia, and the Mysore Lancers rendered valuable service in Egypt and Palestine. Recruiting was stimulated throughout the State and material concessions have been granted to promote the education of the children of soldiers who were killed or disabled in the war. His Highness the Maharaja generously presented horses, ambulance, tongas and other useful gifts and liberally contributed towards the expenses of the war and to the Imperial Indian Relief Fund.

From

Major C.G.N. Edwards, I.A.,
Secretary to the Hon'ble the Resident in Mysore.

To

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore.

Dated, Bangalore, 11th July 1935.

Subject.

MEMORANDA ON THE INDIAN STATES.

Sir,

I am directed to say that the Government of India have suggested that in order to ensure an equitable uniformity, the figures of the average annual revenue of the Indian States shown in column 8 of the statistical pages of the "Memoranda on the Indian States" should not include :-

(1) alienations of land revenue,
(2) balances in hand, a n d
(3) debt and deposit receipts;

and, for the purpose of revenue from railways, should include only the net receeipts from this source. I am therefore to request that if there is no objection, the figures included in this column may in future conform to th requirements explained above.

I have the honour to be,
Sir,
Your most obedient servant,

C.G.N.
Sd/-/ Edwards,

Secretary to the Resident.

information annually as now required by the Govt of India. As ordered by the Fl Secy, the Rev Commr was addressed and his reply is now final. As the matter pertains to Revenue heads and the approximate average annual revenue will, as usual be supplied by the Fl B^r, that Secretariat may kindly obtain the requisite data, from the Comptroller who may if necessary consult the Rev Commr, before Dec^r annually and supply the same this year and in future years in accordance with the instructions of Govt of India. The file will be transferred to the Fl Secty. if approved.

20/9/35

17) Subd: The Residency may perhaps be addressed for advice on the points raised by the Rev: Commr in his letter flagged A.

18) In the meanwhile, the Comptr: may be requested to furnish the necessary statement by taking the average revenue & expenditure for the last 5 years.

26/9/

19) A copy of the Residency letter may be forwarded to the Comptroller and he may be requested to furnish the figures in accordance with the directions contained therein, corresponding with the R.C, if necessary.

Fl Secy) 26/9/35.

NOTE—Contn Sheet.

WD 03594—GPB—30,000—13-7-35

20. I think the term 'alienations of land revenue" referred to in the Residency letter relates to the Land Revenue of Jahagirdh, e.g. Yelandur and Sringeri, and that what the Government of India want is the inclusion of the net land revenue received by Government and not gross revenue including that of these Jahgirs, showing the amount paid to them as expenditure. The procedure we are now following is in accordance with this. There is no need to make a reference to the Comptroller of the Residency, about the interpretation of the word alienations and the figures may be given as usual taking the average of the figures for the five years ending 1933-34).

21 Submitted to the Dewan as this pertains to a Communication from the Residency.

					To The Fin: Br: (WC) The Revised position is marked 'A' 7.1.36	

MEMORANDA ON THE INDIAN STATES-MYSORE STATE. 10(19)

Extract regarding Loans.

"The State raised a loan of Rs, 8,80,000 in 1919. In July 1920, the State raised a public loan for a sum of Rs.119 lakhs with a view to financing the several productive works now in progress. In 1921, a further loan was floated for the same purpose to which subscriptions amounted to 226 lakhs. The Shimoga District Board Railway debenture loan to the extent of about Rs.3,71000 was taken over by the State in July 1928. In the year 1930 a further loan to the extent of Rs. 423.56 lakhs was raised"

The Protection Branch wants the above portion to be revised with reference to subsequent loan operations. The need for making mention of the loans raised on several occasions is not clear. It would perhaps be sufficient if the policy in raising public loans is indicated and the amount of public debt outstanding at the end of the prescribed period is mentioned. The following revised para is submitted for consideration:-

"The State has from time to time raised public loans (both in and outside Mysore) for financing large productive works and for creating a sinking fund for their repayment an annual contribution is made from the Revenue Budget. The total public debt outstanding at the end of December ~~1934~~ 1935 is Rs. ~~1067~~ 859.34 lakhs, and the total amount at the credit of the Loan sinking fund on the same date is Rs. ~~415~~ 307 lakhs".

6/1/36.

Sir,

Is it necessary to give the Public debt outstanding at end of Dec 34, (Revised figure) above (as noted) if not, the amount of P.D. as on 31-12-35 may be given. It is Rs 8,57,94000.

Government may kindly see the lines of the last year's para (marked A) may be published on the lines of the last year's para (marked A) may be published

Public Debt ~~850~~ 859.34 lakhs excluding ~~outstanding~~ Rs 160.62 lakhs Mysore Railway Sterling Debenture loan of 1886, corrected & returned

Routine Notes.

[To be used only for notes, requisitions, etc., not intended for permanent record.]

The State is now the principal gold producing centre in India, the value of the output including that of a relatively small quantity of silver, for 1935 being £

Calendar year 1934

	Fine Gold	Silver
Total quantity	324,133.184 ozs	25,491.22 ozs.

Total Value £ 2,21,289-19-8

Renewal of leases—
Gold mining leases on the K.G.F. were renewed for a further period of 30 years from the year 1941. The royalties payable under the existing leases are 5% on the net sale value of gold produced & 2½% on the dividends declared. According to the new leases the basic royalty is continued at 5% on the net sale value of all gold produced but the royalty based on profits varies with the rate of

In bringing the information up-to-date i.e. 1-1-1936 of the sentence relating to output of gold in the Memoranda on Indian States, information has to be obtained from the Dy Cr. It may be also of worthy of mention to add a sentence re the new agreement entered into with the firms. The Dy Cr may therefore be immediately requested to furnish the information necessary.
